It is a movement which is worthy of support, for the reason that at the moment, there seems to be a general dissatisfaction, from the inside. And I might even say that no one on the outside really wants to get in. Conditions must be frightfully cramped, for very often members who are on the inside feel forced to break out and find more room. Now everyone knows this shouldn't be, so let's all work together and see what can be done.

Well, in the beginning we have a number of jazzy parades. Rock breaking is done to music, in fact everything is done to make things cheerful.

The whole thing seems to be set wrong by Terrible Teddy Cat, and Dynamite Dick Mouse. They work out a scheme to break jail, and really do it. In real golf style, the "put" rocks, and knock the wall guards for a row of rainy Sundays. The escaping business becomes the one great topic of the day. Cats, mice, elephants and everything else make a clean break.

A very hot and snappy chase follows. Egyptian guards step right out and do their stuff. Seems just as Terrible Teddy and Dynamite Dick were nearly captured they escape into the sky on smoke clouds, a crowd spies them and shoots them down, they crash right thru the roof of the self-same jail and into the own cell. Now their convinced. "Never give up a sure thing for a possibility."
